

# Exemplary workflow in landscape ecology using [R]

Import  
spatial data

Raster data 
raster
stars

Vector data 
sf
sp

Online data 
rgbif
rnaturalearth

Pre-process  
spatial data

Raster data 
raster
stars

Vector data 
sf
sp

Bridge tools 
gdalUtils
rgrass7

Quantify  
spatial data

Raster data 
landscapemetrics
belg

Vector data 
geodiv

Simulate null  
model data

Raster data 
NLMR
RandomFields

Create  
maps results

Advanced 
ggspatial
tmap
